The results reflects our findings at time and place of inspection. This report does not relieve seller/manufacturers from their contractual liabilities or prejudice buyers' right for compensation for any apparent and/or hidden defects not detected during our random inspection or occuring thereafter. This report does not evidence shipment, Final approval is required by client before releasing shipment.

		Total	0		0	3	
		Allowed	0		3	7	
		Result		W	thin AQL		

Note: You directed that your inspection be based upon Combined sampling, Testcoo advises all clients of the risks associated with "Combined Sampling" where several different product styles are combined to make a single lot size. Combined Sampling represents an increased level of risk to you as statistical rules are compromised and the chances of missing quality issues are much greater than during single style sampling. We disclaim any liability to you if you make decisions concerning the acceptance, payment authorization, or shipment of the inspected goods based upon Combined Sampling.

color box sealed with gummed.

Back To Summary

	Test Item	Test Requirement	Actual Finding	Sample Size	Test Result
H1. 1	Carton Size and Weight Check	Conformance per Spec. and printed information If no specified tolerance, follow +/- 5%	Refer to below chart	1 carton/ style	Actual Finding
H2.	Product Size Check	Conformance per Spec. and printed information If no specified tolerance, follow +/- 3%	Refer to below chart	5pcs	Actual Finding
H3.	Product Weight Check	Conformance per Spec. and printed information If no specified tolerance, follow +/- 3%	Refer to below chart	5pcs	Actual Finding
H4.	Barcode Check	Must be able to be scanned and barcodes are correct as printed	No failure	5pcs/style	Conform
H5.	Carton Drop Test	According to ISTA-1A 1 corner, 3 edges, 6 sides, drop 10 times	See Remark	1 carton/ style	Pending
H6.	Full Assembly Test	Check if the actual parts are compliance to the parts list provided in assembly instruction Perform assembly by reviewing the manufacturer's assembly instructions Nonconformance is not allowed	No failure	5pcs	Conform

INSPECTION REPORT

Report No: 220812185497193R1 Report Date: 16-Aug-2022

				Report Date: 16	-Aug-2022
H7.	Complex Function Check	Work at each function according to instruction sheet and each functional point should be operated successfully.	No failure	5pcs	Conform
Н8.	Screen Printing Quality Check	Place 3M tape on the surface of selected sample and cover the printing as much as possible.Rub the strip with the fingers to insure total surface contact. Lift one end of the tape and remove with a rapid, jerking motion.Repeat this procedure for 5 times. Examine if any loss of the printing or any printing transfer onto the tape	No failure	5pcs	Conform
H9.	High voltage test	Conduct the test for 1 second (5 mA) at the voltage required between the tested parts (the voltage refer to the actual category product requirement or otherwise refer to below.) The testing voltage required: For the USA/Canada markets: 1200Vac For European markets: class I 1000Vac class II 2500Vac no insulation breakdown	No failure	Full samples	Conform
H10.	Power consumption check or input power/ current check	The power consumption /input power / current must comply with product spec and safety standard. normally the tolerance should be between +5% and - 10%. [for the appliances of US market] _+5% / - 10% of its marked rating [for all appliances <= 25W rated power input] _ +20% of the rated powerW [for heating and combined appliances]: _ [>25W and <= 200W - spec.] +/- 10% of the rated powerW [[>200W - spec.] +5% / - 10% of the rated power W [for motor operated appliances]: _ [>25W and <= 300W - spec.] +20% of the rated powerW [[>300W - spec.] +15% with the rated power2000_W	Without loading 220V: 1537- 1562W; 230V 1660- 1714W 240V: 1723- 1824W;	Full samples	Actual Finding
H11.	Power on check	The good condition samples should be operating at full load (preferable) at least 4 hours at rated voltage or time reference the user instruction if less than 4 hours. after testing the samples should pass the hi voltage check, function check, earth continuity check etc., and no defect found.	No failure	5pcs	Conform
H12.	Internal workmanship and critical component check	Check internal construction completement and main components according with CDF (Constructional Data Form) or CCL (critical components list)	See Remark	5pcs	Pending
H13.	Vacuum pressure check	Shall comply with claimed spec.	20.5 - 22.99 kpa	Full samples	Actual Finding
H14.	Power cord strain relief test	IEC standard: Pull on the cord for 25 times If the product has a net weight <= 1 kg, use a force of 30 N. If the product has a net weight 1 kg > , <= 4 kg, use a force of 60 N.	No failure	5pcs	Conform

INSPECTION REPORT

Report No: 220812185497193R1 Report Date: 16-Aug-2022

		If the product has a net weight > 4 kg, use a force of 100N - The cord should not be displaced more than 2 mm. UL standard: Pull on the cord for 35 lb 1 min the cord should not be displaced.			
H15.	Motor locking check	Locking the motor under rated voltage supplying. the product shall not cause hazard to the user or surrounding, ignition of the enclosure material, emission of flame or molten metal, nor glowing or flaming of the material shall not occur.	See Remark	1pcs	Pending
H16.	Low voltage starting check	It should be started at 90% of rated voltage.	No failure	5pcs	Conform
