**C1. PROBLEM REMARKS**

1	No approval sample was provided by applicant or supplier for style& color comparison
2	No any Packing / Marking spec. were provided by applicant or supplier for reference.
3	Upon arrival on factory, 6740pcs goods were finished and QC checked, but only 40pcs packed into master carton, the rest of 3260pcs goods are waiting for packaging
4	Factory can't provide suitable equipment for RAM and ROM capacity check
5	Actual products no network function, but have this option in settings menu.

6	Screen has ghosting in FM and Audio player mode.
---	--------------------------------------------------

7	Actual marking on side of color box different from to client's spec. details please refer to below photo.
---	-----------------------------------------------------------------------------------------------------------

**C2. INFORMATIVE REMARKS**

8	N/A

**D. Critical Check Point**

[Back To Summary](#)

Item#	Remark content	result
VETERAN IV plus	The call function of the product is OK, and the camera takes pictures clearly	Conform

**E. Visual and Workmanship**

[Back To Summary](#)

Inspection Standard	ANSI/ASQ Z1.4 Single Sampling Plan		
Inspection Level	Fixed sample size		
Defect Classification	Critical	Major	Minor
AQL	Not Allowed	1.5	4.0
Sample Size	125	125	125
Details of Defect Found	Critical	Major	Minor
Glue stain on housing	0	0	3
Abrasion mark on housing	0	0	1
Scratch mark housing	0	0	1
<b>Total</b>	0	0	5
<b>Allowed</b>	0	5	10
<b>Result</b>	Within AQL		

Note: You directed that your inspection be based upon Combined sampling, Testcoo advises all clients of the risks associated with "Combined Sampling" where several different product styles are combined to make a single lot size. Combined Sampling represents an increased level of risk to you as statistical rules are compromised and the chances of missing quality issues are much greater than during single style sampling. We disclaim any liability to you if you make decisions concerning the acceptance, payment authorization, or shipment of the inspected goods based upon Combined Sampling.

**H. Data Measurement / Field Test**

[Back To Summary](#)

	Test Item	Test Requirement	Actual Finding	Sample Size	Test Result
H1.	High voltage test for adaptor	Conduct the test for 1 second (5mA) at the voltage required between the tested parts (the voltage refer to the actual category product requirement or otherwise refer to below. ) The testing voltage required: For the USA/Canada markets: 1200Vac For European markets: class I 1000Vac class II 2500Vac no insulation breakdown	No failure	All Samples	Conform
H2.	SIM card installation check	General spec./internal WI	No failure	All Samples	Conform
H3.	TF card installation check	General spec./internal WI	No failure	All Samples	Conform
H4.	Battery installation check	General spec./internal WI	No failure	All Samples	Conform
H5.	Power on interface check	As client's spec.	No failure	All Samples	Conform
H6.	Hand shock check	As client's spec.	No failure	All Samples	Conform
H7.	Initial setting check	As client's spec.	No failure	All Samples	Conform
H8.	Default Ring tone and Vibration check	As client's spec.	No failure	All Samples	Conform
H9.	Hardware version check	As client's spec.	No failure	All Samples	Conform
H10.	Software version check	As client's spec.	No failure	All Samples	Conform
H11.	Charging function check by AC adaptor and base	As instruction manual	No failure	All Samples	Conform
H12.	IMEI No. consistency check on unit gift box and carton	General spec./internal WI	No failure	All Samples	Conform
H13.	LCD quality check	As client's spec.	No failure	All Samples	Conform
H14.	Button function check	General spec./internal WI	No failure	All Samples	Conform
H15.	Communication test with other phone	General spec./internal WI	No failure	All Samples	Conform
H16.	Audio playing check	General spec./internal WI	No failure	All Samples	Conform
H17.	Camera photograph and Audio recording/Playing check	General spec./internal WI	No failure	All Samples	Conform
H18.	FM radio function check	General spec./internal WI	No failure	All Samples	Conform
H19.	Earphone function check	General spec./internal WI	No failure	All Samples	Conform
H20.	Bluetooth function check	General spec./internal WI	No failure	All Samples	Conform
H21.	Power off interface check	General spec./internal WI	No failure	All Samples	Conform
H22.	Packing accessories check	As client's spec.	No failure	All Samples	Conform
H23.	Internet surfing check by GPRS method	General spec./internal WI	No failure	All Samples	Conform
H24.	Battery charging for 4 hours	As instruction manual	No failure	5	Conform
H25.	Battery discharging test	for 4 hour by playing audio	No failure	5	Conform

H26.	SMS(Short Messaging Service) function check	General spec./internal WI	No failure	5	Conform
H27.	Bar code scanning check	Must be able to be scanned and barcodes are correct as printed	No failure	5	Conform
H28.	Rubbing test	Use cloth to rub the printing for 15times, and use anchor to rub the printing for 15 times.	No failure	3	Conform
H29.	Screen Printing Quality Check	Place 3M tape on the surface of selected sample and cover the printing as much as possible. Rub the strip with the fingers to insure total surface contact. Lift one end of the tape and remove with a rapid, jerking motion. Repeat this procedure for 5 times. Examine if any loss of the printing or any printing transfer onto the tape	No failure	5	Conform
H30.	Internal workmanship and critical component check	Check internal construction completment and main components according with CDF (Constructional Data Form) or CCL (critical components list )	No failure	3	Conform
H31.	Carton Assortment and Quantity Check	Actual packing quantity/color/size/style assortment conforms to printed information.	See Remark No failure	3 cartons	Conform
H32.	Product Size Check	Conformance per Spec. and printed information If no specified tolerance, follow +/- 3%	See Remark Refer to below chart	5pcs	Conform
H33.	Carton Size and Weight Check	Conformance per Spec. and printed information If no specified tolerance, follow +/- 5%	See Remark Refer to below chart	1 carton	Conform
H34.	Carton drop test	According to ISTA-1A 1 corner, 3 edges, 6 sides, drop 10 times	No failure	1	Conform
